

1. You need to create a memrise account : go to <https://www.memrise.com/join/> and create an account (if you don't have one already)
2. Give me your memrise ID so I can add you to the course (mine is XXXXX)
3. Once I add you as admin to the course you'll be able to edit the course
4. Go to database
5. on each line you'll see a « record » button click on the record button of the first line and allow memrise to access your microphone.
6. record the word then click « next »
7. record words and sentences one by one, after a group of 20-50 just stop so the app can buffer and save the audio, then continue
8. Tell me how long it took you!
9. Thank you so much, this is going to help me a lot! If you see any mistake, please edit the word or tell me
